

TRAINING AND CERTIFICATION

Build cloud skills at scale - your way

AWS Skill Builder Team subscription

Whether you're new to the cloud or implementing next-level cloud development, you need a highly skilled workforce. Now, your teams can leap forward and learn the cloud skills they need anytime.

Introducing **AWS Skill Builder**, a one-of-a-kind learning center with on-demand and interactive training experiences designed with your team in mind. With the **AWS Skill Builder Team subscription**, you're equipped with unique training features and administrative capabilities to help teams meet business and professional development goals.

We were looking for a way to provide maximum flexibility for including training in our teams' work schedules. Skill Builder makes it easy to explore new tools that are outside of the current learner's domain. This greater exposure to new services and topics helps our teams drive experimentation and innovation in their projects."

Dorothee Garth, Director of Technology Operations, Zalora Group

AWS Skill Builder Team subscription includes:

- ✓ Exclusive learning plans to prepare for such roles as Cloud Practitioner, Solution Architect, Serverless Developer, Security Specialist, Data Analytics Specialist, Machine Learning Specialist, and Networking Specialist.
- ✓ AWS Cloud Quest, the first-ever role-playing game designed to teach AWS skills.
- ✓ AWS Industry Quest, learning focused on teaching solutions for common industry use cases, for Financial Services and Healthcare, with more industries to come.
- ✓ AWS Jam events and AWS Jam Journey, where learners can work with their teams or build on their own to solve challenges across cloud topics.
- ✓ AWS Builder Labs that immerse teams in hands-on, real-world cloud scenarios.
- ✓ Exam prep courses, including AWS Certification Official Practice Exams, which have the same depth, rigor, and scoring as AWS Certification exams.
- ✓ 600+ on-demand digital courses for learners at every level.

Plus, administrative capabilities:

- ✓ Assign training to teams or individuals to drive targeted skills.
- ✓ Access built-in reports that show course enrollments, progress, completion rates, and more.
- ✓ Use single sign-on to simplify security and password management.*

*Single sign-on (SSO) is optional and available for those who use ADFS, Azure AD, Ping, and Okta.

Compared to other companies, organizations investing in cloud skills programs achieve¹:

¹Aberdeen, Developing Cloud Skills Within Your Workforce, January 2021

18.5%

higher revenue per full-time employee

19.3%

higher average employee tenure

21.7%

more on-time cloud project completion rates

23.9%

less time for new hires to work at full capacity

With the AWS Skill Builder Team subscription, you can:

- ✓ Accelerate cloud transformation
- ✓ Engage your teams, their way
- ✓ Increase performance and productivity

Get Started

No matter where your organization is in its cloud journey, an AWS Skill Builder Team subscription equips your teams to achieve goals faster.
